Announces...Upcoming
Preschool CAP Training

Facilitators from the Devon, England CAP project conduct a Preschool CAP Workshop – kids love it!

INTERNATIONAL CENTER FOR ASSAULT PREVENTION
Preschool CAP Curriculum

*We know how elementary school children respond to our message of empowerment. **Why not introduce these concepts at the preschool level in a developmentally appropriate way.** Preschool CAP teaches children's rights and personal safety issues*

*through the use of pictures, dolls, songs, movement, and role plays. Since almost 40 percent of all children abused are under the age of 5, prevention education should begin at an early age. **Our goal for preschoolers is to build a foundation of safety to last a lifetime.** Join us in achieving this goal around the globe! Don't miss this opportunity to explore early childhood, meet CAP facilitators from other projects, and become a certified Preschool CAP Facilitator!*
